Faculty of Engineering

28 Colleges

International College for Sustainability Studies
College of Social Communication Innovation
College of Creative Agriculture for Society
College of Creative Industry

33 Graduate School

35 Institutes

Behavioral Science Research Institute
Educational and Psychological Test Bureau
Strategic Wisdom and Research Institute
The Institute of Culture and Arts

41 Medical Centers

HRH Princess Maha Chakri Sirindhorn Medical Center
Panyanantaphikkhu Chonprathan Medical Center

44 Demonstration Schools

Prasarnmit Demonstration School (Elementary)
Prasarnmit Demonstration School (Secondary)
Patumwan Demonstration School
Ongkharak Demonstration School

50 Centers

Innovative Learning Center
Center for Educational Media and Technology
Central Library
Computer Center

54 Facilities and Services Available on Campus

Srinakharinwirot University's Emblem symbolizes an exponential curve: $Y = e^x$ that signifies growth, which is our educational philosophy.

The university's colors are gray and red. Gray signifies that all thoughts and actions should be mindful while red is the color of bravery and determination. Therefore, the gray and red colors of the university denote "thinking and courage."

The symbolic tree of the university is the Golden Shower (Cassia Fistula Linn), which is also the national tree of Thailand. It has beautiful yellow flowers, and represents religion, high moral, and ethical standards as well as being the color most associated with the King of Thailand. The majestic yellow cluster of this flower represents the extraordinary power of collective will.

Srinakharinwirot University has more than 25 faculties, colleges, institutes and centers. The social sciences faculties are located at Prasarnmit campus in downtown Bangkok while the health sciences and engineering faculties are at rural Ongkharak campus in Nakhon Nayok province.

All faculties offer Bachelor's degrees and most also offer Master's and Doctoral degree programs to meet the needs of society and the interests of students. Several faculties also run programs jointly with overseas institutions to broaden the University's knowledge base.

At the heart of every faculty is the desire to provide a well-rounded education and produce good citizens who will benefit the nation and the global society.

Faculty of Environmental Culture and Ecotourism

Faculty of Business Administration for Society

Faculty of Education

Website: <http://edu.swu.ac.th/>

Phone: (662) 640 000 Ext. 15597

Originated from the Advanced Teacher Training School founded in 1949 and the College of Education founded in 1953, Srinakharinwirot University has developed into a university offering a wide range of programs for Thai and international students. Faculty of Education has always been an integral part of Srinakharinwirot University, particularly in training educators at all levels from early childhood to secondary education, and from undergraduate to post-graduate levels of education. The faculty is committed to advance the field of education through research, innovation, community partnership, and international collaboration.

ORGANIZATIONAL UNITS

Faculty of Education consists of seven academic departments, one center, and three demonstration schools as follows:

Academic Departments and Center

- Department of Adult Education and Lifelong Education
- Department of Curriculum and Instruction
- Department of Educational Administration and Higher Education
- Department of Educational Measurement and Research
- Department of Educational Technology
- Department of Guidance and Educational Psychology
- Department of Industrial Education
- Special Education Development Center

Demonstration Schools

- Patumwan Demonstration School, Srinakharinwirot University
- Srinakharinwirot University Prasarnmit Demonstration School (Elementary)
- Srinakharinwirot University Prasarnmit Demonstration School (Secondary)

PROGRAMS:

Bachelor of Education (B.Ed.) (Single Major)

Elementary Education; Early Childhood Education; Electrical Industrial Education; Psychology and Guidance

Bachelor of Education (B.Ed.)

(Dual Major - choose one from Group A and one from Group B)

Group A: Elementary Education; Education for Community Development; Educational Measurement, Evaluation and Research; Educational Technology; Industrial Education; Lifelong Learning; Psychology and Guidance; Special Education

Group B: Computer Education; Early Children Education; Learning Management in English; Learning Management in Mathematics; Learning Management in Thai; Learning Management in Science; Learning Management in Social Studies

Master of Education (M.Ed.)

Educational Administration, Educational Measurement, Evaluation, and Research; Educational Management for Human Potential Development; Guidance Psychology; Educational Science and Learning Management; Educational Technology; Higher Education Management; Special Education

Doctoral of Education Programs (Ed.D.)

Educational Administration; Educational Management for Human Potential Development; Educational Technology; Guidance Psychology; Higher Education Management; Special Education

Doctor of Philosophy Program in Education (Ph.D.)

Educational Measurement, Evaluation, and Research; Educational Science and Learning Management

Faculty of Fine Arts

Website: <http://fofa.swu.ac.th/>

Phone: (662) 260 0123

The Faculty of Fine Arts at Srinakharinwirot University was established in 1993 to provide excellent education and the best practice in teaching and learning the fine and applied arts, arts education and arts management. The faculty began to serve the society with higher education in the disciplines of arts and design, offering undergraduate programs in visual arts and arts education. Later development of the program brought the establishment of more complete

disciplines, including dance, music and performing arts. At present, the Faculty of Fine Arts offers ten undergraduate programs and five postgraduate programs. The Faculty focuses on integrated learning approach by constantly updating its curriculum in order to achieve its core objective enabling our students to simultaneously gain in-depth academic knowledge and practical skills and being able to directly apply such knowledge and skills in real-life profession.

PROGRAMS:

Bachelor of Fine and Applied Arts (B.F.A.)

Communication Design, Visual Design (Product Design, Jewelry Design, Fashion Design), Visual Arts, Performing Arts (Acting and Directing, Theatre Design), Creative Dance and Management (Thai Dance, Western Dance), Music

Bachelor of Arts (B.A.)

Arts and Cultural Management Innovation

Bachelor of Education (B.Ed.)

Art Education, Music Education, Thai Dance Education

Master of Arts (M.A.)

Thai and Asian Music

Master of Education (M.Ed.)

Arts Education

Doctor of Arts (D.A.)

Thai and Asian Music, Arts and Culture Research

Doctor of Education (D.Ed.)

Arts Education

Faculty of Humanities

Website: <https://www.enghu.swu.ac.th>

Facebook/IG: @Humanities.SWU | Twitter: @pr_huswu

Phone: (662) 260 1770-7, (662) 649-5000 ext. 16292

Fax: (662) 260 1914

The Faculty of Humanities offers students the opportunities to develop language and valuable skills that will benefit them in their chosen careers through the interdisciplinary study of society, language, and culture throughout history. With programs in Thai and a broad range of Asian and Western languages and literature, the Faculty of Humanities offers bachelor's, master's and doctoral degrees. There is a strong emphasis placed on research in language, linguistics, and language teaching. Bachelor and Master of Education degrees are also offered in collaboration with the Faculty of Education.

PROGRAMS:

Bachelor of Arts (B.A.)

Thai, English, Oriental Languages (Chinese; Korean; and Japanese), Information Studies, Children's Literature, Philosophy and Religion

Bachelor of Education (B.Ed.)

Thai, English

Bachelor of Science (B.Sc)

Psychology

Bachelor of Arts (B.A.) in Language for Careers

– International Program

Language for Digital Business, Language for Hospitality Management (with minor subjects in Chinese, Japanese, or German)

Bachelor of Arts. (B.A.) in Language for Communication

– International Program

Double majors: English – German, English – French, English – Mandarin Chinese

Master of Arts (M.A.)

Linguistics, Thai, Information Studies, Developmental Psychology

Doctoral of Philosophy (Ph.D.)

Thai (Thai Language and Literature, Thai as a Foreign Language), Language and Global Communication

Faculty of Social Sciences

Website: <https://soc.swu.ac.th>

Facebook: <https://www.facebook.com/socswu>

Phone: (662) 649 5000 Ext 11733, 11725

The Faculty of Social Sciences at Srinakharinwirot University (SocSWU) was founded in 1975. Initially, SocSWU comprised of six departments: Business Administration, Economics, Geography, History, Political Science, and Sociology. Over time, the Department of Business Administration and the Department of Economics became independent entities-establishing themselves as the Faculty of Business Administration for Society and the Faculty of Economics, respectively. Additionally, SocSWU has established the Center for Asia Pacific Studies in 2021 in order to enhance and integrate the expertise of our academic staff in addressing and anticipating social issues both domestically and internationally.

At SocSWU, we strive to provide high-quality education that instills morals and ethics essential for the betterment of our complex society. We offer over 20 undergraduate and postgraduate programs, enabling our students to develop comprehensive knowledge and skills. Furthermore, SocSWU supports staffs and students in conducting research to contribute to the understanding of various social issues. Currently, the faculty comprises 63 academic staff and 36 support staff who serve nearly 1,000 students.

PROGRAMS:

Bachelor of Arts (B.A.)

History, Political Science (International Relations / Politics and Government / Public Administration), Sociology for Development (Urban Community Development / Sociological Research for Development)

Bachelor of Education (B.Ed.)

Social Studies Education

Bachelor of Science (B.Sc.)

Geography and Geoinformatics

Bachelor of Laws (LL.B.)

Master of Arts (M.A.)

History, International Relations, Social Management

Master of Education (M.Ed.)

Social Studies Education

Master of Public Administration (M.P.A.)

Master of Laws (LL.M.) *

Policy and Public Administration

Master of Science (M.S.)

Geoinformatics

Doctor of Education (Ed.D.)

Social Studies Education

Doctor of Philosophy (Ph.D.)

Geoinformatics, Social Management, History *

Doctor of Laws (LL.D.) *

Note: *Programs projected to be available in 2024

Faculty of Economics

Website: <http://econ.swu.ac.th/>

Phone: (662) 169 1004, (662) 649 5000 Ext. 15550

Located at Prasarnmit Campus in the heart of Bangkok's business and financial district and conveniently accessed by the BTS sky train and MRT subway, the Faculty of Economics at Srinakharinwirot University offers degree programs at both undergraduate and graduate levels. The Faculty of Economics has four academic programs:

1. The Bachelor of Economics Program offers classes at Prasarnmit campus, a key economic area of Bangkok. We have instructors who combine high-quality teaching with recent real-world applications, and excellent facilities.
2. The Bachelor of Economics (International Program). With the establishment of the ASEAN Economic Community and the continuing development of global economic integration in mind, this program offers all classes in English in collaboration with many universities around the world.

The program aims to produce international graduates with critical thinking skills and the ability to understand cultural differences.

3. The Master of Arts Program in Managerial Economics focuses on the application of economic theory to managerial decision-making in both governmental and private sectors to strengthen economic development and sustainable growth.
4. The Master of Economics Program (International Program) is the English - medium program that prepares students to be professional economists in both domestic and international settings.
5. The Doctor of Philosophy Program in Economics (International Program) aims to produce scholars in many fields of Economics.

Faculty of Environmental Culture and Ecotourism

Website: <http://ece.swu.ac.th>

Phone: (662) 649 5001

Fax: (662) 260 2903

The Faculty of Environmental Culture and Ecotourism (ECE) was established on 6th May 2011 by the University Council of Srinakharinwirot University in order to provide academic teaching and research, particularly focusing on two major disciplines: Environmental Technology and Resources, and Integrated Tourism Management.

Our programs offer both social science and applied science aspects ranging from undergraduate to graduate levels. Currently, the Faculty has organized three programs from two different majors of study: environment technology and tourism management. The programs in the major of environment comprise one undergraduate program, and one graduate program. The tourism major has one undergraduate program, and one graduate program.

The faculty members and students of our programs have strongly believed that multi-disciplinary learning is a core concept of the two majors. The undergraduate program of the environment major in Environmental Technology and Resources provides courses of integral understanding in environmental science, environmental resources, and technological tools applicative planning and creating an innovative knowledge to conserve natural resources and the environment. Furthermore, the graduate program in Environmental Technology and Resource management provides advantaged courses to students in a core concept of connecting environmental science with community-based management in a practical way, emphasizing on human well-being, natural resource conservation, and pollution reduction in both urban and rural areas.

At present, the undergraduate program of the tourism major in Integrated Tourism Management provides students practice based learning courses which address a variety of technical support for sustainable tourism management. The program allows students to participate in field trips across the country and provides them a tour guide certificate after completing all required courses. Moreover, the graduate program in Tourism and Hospitality Management Innovation provides students with learning courses about the business on how to effectively plan good tours. Other areas of study have been covered, including leisure management, cultural tourism, event leadership, sustainable tourism, marketing strategies and logistic strategies in tourism management.

PROGRAMS:

Bachelor of Science (B.Sc.)

Environmental Technology and Resources

Master of Science (M.Sc.)

Environmental Technology and Resources Management

Bachelor of Arts (B.A.)

Integrated Tourism Management

Master of Arts (M.A.)

Tourism and Hospitality Management Innovation

Faculty of Business Administration for Society

Website: <http://bas.swu.ac.th>

Facebook: <https://www.facebook.com/basswu.pr>

Phone: (662) 169 1016, (662) 169 1018

Fax: (662) 169 1017

The Faculty of Business Administration for Society was formerly operated as the Department of Business Administration under the Faculty of Social Sciences, and was later separated as an independent faculty in 2017. The faculty focuses on the importance of business organizations that can solve social problems while raising the people's standards of living.

With high potential growth, currently there are approximately 2,300 students, 36 instructors and 18 staff. The faculty is considered as one of the largest faculties at Srinakharinwirot University. For nearly 50 years of business teaching experience, at present, the Faculty of Business Administration for Society offers undergraduate and graduate programs as follows:

Bachelor of Business Administration (B.B.A.)

Finance, Marketing, International Business, Tourism and Hotel, Social Enterprise

Bachelor of Accountancy (B.Acc.)

Master of Business Administration (M.B.A.)

Management, Marketing, Social Enterprise

Doctor of Philosophy (Ph.D.)

Business Administration for Society

Faculty of Agricultural Product Innovation and Technology

Faculty of Dentistry

Faculty of Physical Therapy

Faculty of Medicine

Faculty of Nursing

Faculty of Pharmacy

Faculty of Physical Education, Sport Science and Public Health

Faculty of Science

Faculty of Agricultural Product Innovation and Technology

Website: <http://ai.swu.ac.th/>

Phone: (662) 649 5000 Ext. 27167

The Faculty of Agricultural Product Innovation and Technology consists of four programs and one research center. The four programs include Food Science and Nutrition (FSN), Polymer Innovation and Management (PIM), Biotechnology and Agricultural Products (BOT), and Food Innovation and Business (FIB). The one research center is the Agro-Industrial Research Center. All programs are offered in bachelor's degree. We now have 641 undergraduate students studying at Ongkharak campus, Nakhon Nayok province. Our aims are to prepare competent graduates who can apply knowledge of science and technology to create innovations of agricultural products. Our students are also encouraged to study abroad via exchange student programs in Japan, Taiwan, and USA. We also promote the students to possess growth mindset and soft skills through several courses and activities in order to adapt themselves accordingly to the disruptive world. In addition, our students have practiced design thinking processes to continue their future careers as the start-up or entrepreneur in different fields.

The first program founded is FSN program, which collaborated with food manufacturing industry leaders. The students have opportunity to develop their knowledge in various aspects in

this field. They will also participate in several product innovation contests. The second program founded is PIM program which offers technical and management courses in polymer materials development, polymers innovation and business management, polymer processing and technology, specifically bio-based polymer for sustainability. The program provides the opportunity for students to engage in the field beyond the classroom, project-based activities, practicum and co-operative education, so that they can solve specific challenges in the future. The third program is BOT that emphasizes the Bio-, Circular-, Green Economy (BCG) Model regarding the use of microorganisms, products derived from microorganisms, and plants. As a result of our educational program, our graduates are prepared to be responsible for social and environmental responsibility. The courses were designed to prepare students for their future careers by providing them with knowledge and soft skills. This study program covers fermentation technology, molecular techniques, and product innovation for medical and cosmetic applications. Additionally, the BOT program aims to produce bio-based chemicals and biofuels through the exploitation of agricultural products and agricultural waste. Later on, the fourth program was founded, FIB. There are three major disciplines in this program; food science, innovation, and business. Students acquire their skills from hands-on practices. Guest lecturers from food business sectors are invited to coach the students regarding real life situations. The program aims to produce graduates who will be able to open their own food business or able to work in various positions in food and food service companies.

In addition, our Faculty also provides social services on the research basis. Agro-Industrial Research Center provides academic extension services such as community services and sensory evaluation for food companies. Our goal is to help assure the sustainable development of local communities and community enterprises by applying knowledge of science, technology, and innovation to local wisdom and natural resources.

PROGRAMS:

Bachelor of Science (B.Sc.)

Polymer Innovation and Management, Food Innovation and Business, Food Science and Nutrition, Biotechnology and Agricultural Products

Master of Science Program (M.Sc.)

Food Innovation and Entrepreneurship

Faculty of Dentistry

Website: <http://dent.swu.ac.th>

Phone: (662) 649 5000 Ext. 15140

Fax: (662) 664 1882

Established in 1994, the Faculty of Dentistry of SWU is among the top public dental schools in Bangkok. Over sixty outstanding individuals are accepted to the six-year Doctor of Dental Surgery (D.D.S) program that emphasizes knowledge and practical skills in oral sciences and advanced dental research. The program also offers the student an opportunity to participate in an extensive community outreach and service such as learning with oral health promotion and clinical case experiences in varied settings within metropolitan Bangkok and remote provinces. Additionally, in order to establish and strengthen international collaboration, an MOU has been established with Tokyo Medical and Dental University (TMDU), Kyushu Dental University (KDU) and Osaka University. These partnerships have enabled student exchange programs as well as research collaborations.

The Faculty of Dentistry also provides a Master of Science in Clinical Dentistry (subspecialty in Periodontology, Endodontics, Prosthodontics and Restorative Dentistry), Master of Science Program in Advanced General Dentistry, Master of Science Program in Oral and Maxillofacial Sciences (subspecialty in Oral Surgery and Implantology and Oral

Medicine), Master of Science Program in Geriatric Dentistry as well as Residency Training Program in Orthodontics. All the programs encourage clinical procedures and mastery in a wide range of dentistry. All students are encouraged individually and as a team with other specialties to manage adversity of cases through multidisciplinary approaches. Along with clinical training, students will have opportunities to integrate their knowledge into research projects, which include didactic, seminar and practicum courses. Additionally, the two-year Bachelor of Public Health Program in Dental Public Health (Continuing Education) and a one-year training program as a dental assistant are also offered.

The Faculty of Dentistry consists of five departments.

1. Department of Oral Surgery and Oral Medicine
2. Department of Pedodontics and Preventive Dentistry
3. Department of Conservative Dentistry and Prosthodontics
4. Department of General Dentistry
5. Department of Stomatology

PROGRAMS:

Residency Training Program in Orthodontics

Bachelor of Public Health (B.P.H.)

Dental Public Health

Master of Science (M.Sc.)

Clinical Dentistry, Advanced General Dentistry, Oral and Maxillofacial Sciences, Geriatric Dentistry

Doctor of Dental Surgery (D.D.S)

Faculty of Physical Therapy

Website: <http://healthsci.swu.ac.th>

Phone: (662) 649 5000 Ext.27339

Fax: (6637) 395 438

Faculty of Physical Therapy includes two divisions: Physical Therapy and Health Promotion. The faculty offers professional and post-professional degrees including Bachelor of Science in Physical Therapy, Bachelor of Science in Health Promotion, Master of Science in Physical Therapy and Doctor of Philosophy in Physical Therapy. The curriculum was established since 1993 under the supervision of the Faculty of Health Science. The faculty focuses on producing expert physical therapists with responsibility, honesty and professional. Moreover, the Health Promotion curriculum was established in 2010 with a goal to promote and establish preventive measures against ailments among Thai population.

Students will be graduated with the knowledge and clinical skills that are essential to meet the needs of today's society. The graduates are also trained to think rationally and analytically, so that they will be able to conduct the research and acquire new knowledge through continued self-study.

Finally, they are instructed to be ethical and equitable in clinical practice, considerate of economic and social differences. The period of study of B.Sc. in Physical Therapy program and Health Promotion program are typically 4 years. Presently, most graduates have obtained quality positions as Physical Therapist and Health Promoter in government and private sectors.

PROGRAMS:

Bachelor of Science (B.Sc.)

Physical Therapy, Health Promotion

Master of Science (M.Sc.)

Physical Therapy

Doctor of Philosophy (Ph.D.)

Physical Therapy

Faculty of Medicine

Website: <http://med.swu.ac.th>

Phone: (662) 260 2122-4, 260 2233-5, 260 2950-3

Fax: (662) 260 0125

The Faculty of Medicine was established on June 16th, 1985 to tackle the shortage of physicians in Thailand. The project was initiated as a joint venture between Srinakharinwirot University and the Bangkok Metropolitan Administration. The goal was to produce competent and skillful graduates by effectively utilizing existing manpower, equipment, and organization at that time. Since then, we have continually improved our standard of teaching to keep up with the academic advancements and to suit the needs of the nation.

The Faculty strives to produce doctors who are not merely doctors but also human beings as it is the Faculty's core value to produce outstanding practitioners. From the earliest day of students' education, we endeavor to instill a sense of public service and an appreciation for the human aspects of medicine - compassion, empathy and communication skills - as well as the scientific concept of medicine.

The Faculty has also cooperated with the Faculty of Medicine and Health Sciences of the University of Nottingham, United Kingdom. The first international medical program is the Joint Medical Program between University of Nottingham, UK and Srinakharinwirot University, Thailand. This joint program is a special program in which students initially attend the 3-year basic medical sciences (B.Med.Sci) degree at the University of Nottingham, then attend the 3-year clinical study program at the Faculty of Medicine at Srinakharinwirot University to complete the Doctor of Medicine (M.D.) degree from Srinakharinwirot University. The course started enrolling the first batch of students in 2003.

The major clinical teaching site is the faculty's teaching hospital, HRH Maha Chakri Sirindhorn Medical Center (MSMC), located in Ongkharak campus, Nakhon Nayok province. The hospital is named after H.R.H. Princess Maha Chakri Sirindhorn to commemorate Her Majesty Princess's 36th birthday. The hospital serves the region to provide high quality healthcare and serves as base of the faculty's post-graduate medicine training.

PROGRAMS:

Doctor of Medicine (M.D.)

Doctor of Medicine (Joint Medicine Program)

B.Med.Sci (University of Nottingham) :

M.D. (Srinakharinwirot University)

Master of Science (M.Sc.)

Biomedical Sciences, Molecular Biology, Dermatology

Doctor of Philosophy (Ph.D.)

Biomedical Sciences, Molecular Biology

Faculty of Nursing

<http://nurse.swu.ac.th>

Phone: (662) 649-5000 Ext.1800

Fax: (662) 649-5000 Ext. 1823, (6637) 395-108

The Faculty of Nursing of Srinakharinwirot University was established in 1997, located in Ongkharak district, Nakhon Nayok province. The Faculty of Nursing prepares nurses and scholars to lead and transform nursing care in a rapidly evolving, diverse, and complex healthcare system. The Faculty of Nursing is also certified by Thai Nursing Council.

PHILOSOPHY

Our philosophy is knowledge and morality enhancing the quality of Thai people's lives. The Faculty of Nursing believes that nursing profession has a vital role in providing essential health services to individuals, families and the community to improve people health status and promote their quality of life by using integrated care including health promotion, disease prevention, curative care and rehabilitation.

VISION

Our vision is to be a national quality organization aiming to produce nursing professions with public consciousness.

MISSION

Our missions are to prepare quality professional nurses, to promote the nursing research, and to provide academic services through training and community health projects.

DEPARTMENT

The faculty consists of 5 departments as following: 1) Department of Adult and Gerontological Nursing, 2) Department of Pediatric Nursing, 3) Department of Maternal, Child and Midwifery, 4) Department of Community Health Nursing and 5) Department of Mental Health and Psychiatric Nursing.

PROGRAMS:

Bachelor of Nursing Science (B.N.S.)

Master of Nursing Science (M.N.S.)

Adult and Gerontological Nursing, Community Nurse Practitioner

Nursing Specialty Program

(4-month Training Program) in Community Nurse Practitioner

Certificate Program in Practical Nursing

Faculty of Pharmacy

Website: <http://pharmacy.swu.ac.th/en/>

Phone: (6637) 395 094-5

Fax: (6637) 395 096

The Faculty of Pharmacy comprises of six academic departments and an office of the Dean. The departments include Pharmaceutical Technology, Pharmaceutical Chemistry, Pharmacognosy, Clinical Pharmacy, Biopharmacy, and Social and Administrative Pharmacy. For the academic programs, the Faculty of Pharmacy offers four programs: two undergraduate programs, one master's and one doctoral degree programs.

The undergraduate program is a six-year program for the degree "Doctor of Pharmacy." The program has two majors which are Industrial Pharmacy and Pharmaceutical Care. Students will receive professional training (Clerkships) during the last year of the program. The Industrial Pharmacy major provides clerkships in specific areas, e.g. research and development in pharmaceutical formulation, quality assurance and quality control of pharmaceutical products, process control in pharmaceutical manufacturing, and regulatory affairs and product registration. For pharmaceutical care,

clerkships include clinical pharmacy, medication management systems, home pharmaceutical care, pharmaceutical care in acute care, pharmaceutical ambulatory care, special pharmaceutical care, and extemporaneous preparations.

The faculty has also cooperated with the school of Pharmacy of The University of Nottingham, United Kingdom, by initiating the one and only Joint Pharmacy Program (dual degree program) in Thailand. The Joint Pharmacy Program - Srinakharinwirot University and the University of Nottingham, UK - is a special program in which students initially attend the first three-year in the University of Nottingham and gain Bachelor of Science in International Pharmacy Practice. Then, students join the next three-year clinical study at the Faculty of Pharmacy, Srinakharinwirot University to complete their Doctor of Pharmacy (Pharm. D.) degree from Srinakharinwirot University. The major discipline is in Pharmaceutical care.

The title of a master's and doctoral degree programs are the Master of Science (M.Sc.) and the Doctor of Philosophy (Ph.D.) in Pharmaceutical Product Development. The study areas of these two programs include health product development, delivery systems of drugs and health products, quality control of health products, instrumentation for pharmaceutical research and development, and biotechnology for natural product development.

PROGRAMS:

Doctor of Pharmacy (Pharm. D.)

Industrial Pharmacy, Pharmaceutical Care

Bachelor of Science (B.Sc.) in International Pharmacy Practice and Doctor of Pharmacy (Pharm. D.)

Pharmaceutical Care (Joint program between Srinakharinwirot University and the University of Nottingham, UK)

Master of Science (M.Sc.)

Science of Pharmaceutical Products

Doctor of Philosophy (Ph.D.)

Science of Pharmaceutical Products

Faculty of Physical Education, Sport Science and Public Health

Website: <http://pe.swu.ac.th/>

Phone: (662) 649-5000 Ext. 22511

The Faculty of Physical Education, Sport Science and Public Health was founded in 1970 and recognized as the oldest Faculty of Physical Education in Thailand. Currently, the Faculty composes of five departments - Physical Education, Health Education, Recreation, Sport Science, and Public Health - and one sport center - Sirindhorn Sport Center. Over 2,000 students have been accommodated by the faculty presently.

The Faculty offers undergraduate and graduate programs in Physical Education, Sport Science, Health Education, Recreation, and Public Health. These programs are organized in both regular (weekday) and special (weekend) courses. Additionally, intensive courses and training programs for the community are provided on a consistent basis.

The Faculty intends to be the top educational institution in sport and health by providing and creating knowledge in physical education, sport, recreation, and public health to improve the quality of life and health of the population.

Our venues, excellent sport facilities and sport science equipment are available and accessible for sport professions and everyone. The national and international competition or even friendship games have been organized throughout the year to provide great opportunities for sport professions.

PROGRAMS:

Bachelor of Arts (B.A.)

Recreation Leadership

Bachelor of Education (B.Ed.)

Physical Education, Health Education, Physical Education and Health Education

Bachelor of Science (B.Sc.)

Sport and Exercise Science, Public Health

Master of Arts (M.A.)

Sport & Leisure Management

Master of Education (M.Ed.)

Health Education and Physical Education

Master of Science (M.Sc.)

Sport and Exercise Science

Doctor of Education (Ed.D.)

Health Education and Physical Education

Doctor of Philosophy (Ph.D.)

Sport and Exercise Science, Sport & Leisure Management

Faculty of Science

Fax: (662) 260 0128

The Faculty of Science aims to achieve academic excellence by promoting research and producing high quality, virtuous, and ethical graduates in the disciplines of science, mathematics, technology and education. Presently, the Faculty of Science includes the Science Education and eight departments including Biology, Chemistry, Computer Science, General Science, Material Science, Mathematics, Microbiology and Physics which provide degree programs from the bachelor to the doctoral levels.

The Programs are designed to offer fundamental and advanced education for use in professional fields. Many of these programs are carried out in collaboration with the Faculty of Education to enhance the teaching of science and mathematics nationwide. In addition, the Faculty brings science, mathematics and technology to the public through teacher training courses, summer science camps and on-demand scientific services.

Recent research carried out by faculty members include

the following areas: Biology, Chemistry, Computer Science, General Science, Materials Science, Mathematics, Microbiology, Physics and Science Education Center.

PROGRAMS:

Bachelor of Education (B.Ed.)

Biology, Chemistry, General Science, Mathematics, Physics

Bachelor of Science (B.Sc.)

Biology, Chemistry, Computer Science, Materials Science, Mathematics, Microbiology, Physics, Statistics

Master of Education (M.Ed.)

Biology, Chemistry, Mathematics, Physics, Science Education

Master of Science (M.Sc.)

Biology, Biotechnology, Chemistry, Materials Science, Physics, Data Science, Applied Microbiology

Doctor of Education (Ed.D.)

Mathematics Education, Science Education

Doctor of Philosophy (Ph.D.)

Applied Chemistry, Biotechnology, Mathematics, Physics, Applied Microbiology

Faculty of Engineering

Facebook: EGSWU

The Faculty of Engineering aims to educate, train, and prepare students for their future careers by enhancing their abilities to solve problems with solid engineering fundamentals and innovation, together with empowering them with leadership skills. The Faculty of Engineering is dedicated to preparing the next generation of students in AI, energy engineering, advanced healthcare technology, engineering management, computer science, and various multidisciplinary degrees.

The Faculty is equipped with state-of-the-art technology. Our faculty members have achieved national and international recognition, and are highly competent in the integration of education, technology, research, and community services. Therefore, our students will have direct participation in research and gain real-world experiences from the faculty members.

The Faculty of Engineering offers undergraduate and graduate programs in both traditional and multidisciplinary engineering through extensive coursework, engineering projects, hands-on field training, and laboratory work. The students will also enjoy learning from extra-curriculum activities, soft skills, training, and internships. Moreover, the Faculty of Engineering also provides great opportunities by granting the scholarships for undergraduate and graduate levels. This includes the opportunities for students and faculty members to apply knowledge to community services which promote economic growth and enhance the country's sustainable development. Our faculty members and alumni are also renowned for their contribution to society in the forms of research, major projects, development in engineering technologies, and innovations both national and international.

PROGRAMS:

Bachelor of Engineering (B.Eng.)

Thai Programs; Chemical Engineering, Mechanical Engineering, Electrical Engineering, Biomedical Engineering, Industrial Engineering, Civil Engineering, Computer Engineering, Environmental Engineering

Bilingual Programs; Logistics Engineering

International Programs; Concert and Multimedia Engineering, Petroleum and Renewable Energy Engineering, Computer Security and Forensic Engineering

Master of Engineering (M.Eng.) (Thai Program)

Mechanical Engineering, Civil Engineering, Electrical Engineering, Biomedical Engineering, Chemical Engineering

Doctor of Philosophy (Ph.D.) (Thai Program)

Mechanical Engineering, Electrical Engineering, Chemical Engineering

College of Creative Industry

International College for Sustainability Studies

Website: <https://ic.swu.ac.th/>

Phone: (662) 259 4754

International College for Sustainability Studies (SWUIC) is an academic institution which established in 2004 with a primary objective to provide international programs for Srinakharinwirot University students. Since being established, the College has actively promoted the understanding and appreciation of natural environments and cultural diversity through its undergraduate programs in Sustainable Hospitality and Tourism Management (SHTM) and Language and Intercultural Communication (LIC). The ultimate goal of these two international programs is to produce qualified and competent graduates, who are equipped with the wisdom and knowledge that is in accordance with the SWUIC core values which are 'Integrity', 'Internationalization', 'Communication', 'Community', 'Cultural Adaptability' and 'Sustainability', to serve the needs of society.

To underline the college's mission and vision, SWUIC prepares its students through a variety of learning opportunities that encourage them to become global citizens who can think

globally and act locally with sense of sustainability in mind. This means SWUIC students are encouraged to apply current global knowledge to the implementation of research projects and activities within local communities, and will be encouraged to do the same with global knowledge in the future. Keeping the admired mission in mind, learning and teaching at SWUIC are guided by the belief that our students and faculty members belong to an international community of scholars where they are able to cultivate lifelong learning. This community, therefore, is dedicated to providing the students with global knowledge, specifically in the disciplines of hospitality and tourism management as well as language and intercultural communication.

Apart from the two distinctive educational programs, the provision of excellent academic services is considered to be another ultimate goal and a hallmark of SWUIC. As one of the standardized training centers, SWUIC is committed to ensure the delivery of high-quality training courses as well as translation and editing services. The College also aims to become a national English proficiency test center.

PROGRAMS:

B.A. in Sustainable Hospitality and Tourism Management

B.A. in Language and Intercultural Communication

College of Social Communication Innovation

Website: <http://cosci.swu.ac.th>

Phone: (662) 649 5000 Ext. 11275, 11251 or (662) 259 2343

Fax: (662) 259 2344

The College of Social Communication Innovation, founded on July 7th, 2006, was established with the purpose of creating equilibrium between communication and the media in the society. This necessitates the development of individuals who will be able to take control and deal with the changes in the communication technology which relies on the new and different ways of thinking.

The College of Social Communication Innovation will be an educational and research institution based on the integration of sciences of communications and technology, business administration and the arts in order to create a body of knowledge which designed to keep up with the current trends. We believe that the equilibrium and integration will develop the media as the tool that will bring many advantages to our society.

The programs offered are interdisciplinary that integrating a diverse range of knowledge from other institutions and the real world. Also, the programs are planned to embrace the learning environments and teaching methods - from the learning environment of the laboratory to cooperative education through the cooperation of public and private sector and the international institutions. The language mediums will be both in Thai and English in order to maximize the graduates' potential in the global economy.

PROGRAMS:

Bachelor of Arts - Social Communication Innovation (B.A., Bi-Lingual Program)

Computer for Communication, Cyber Business Management, Interactive and Multimedia Design

Bachelor of Arts – Cinema and Digital Media (B.A., Bi-Lingual Program)

Acting and Directing for Cinema, Cinema and Digital Media Production, Production Design

Bachelor of Arts – Communication Innovation (B.A., Bi-Lingual Program)

Health Communication, Innovative Management Communication, Tourism Communication

Master of Arts (M.A., Bilingual Program)

Cinema and Digital Media, Communication Innovation, Health Communication, Design for Business

College of Creative Agriculture for Society: CCAS (Bodhivijjalaya College)

Website: <https://bodhi.swu.ac.th/>

Phone: (662) 649 5000 Ext. 15919, 15920

Fax: (662) 260 2141

CCAS was established in 2004. The College's goal is to support higher level education reform and to develop a pilot program for alternative education to address the population's lack of education opportunities in the remote area near the Thai border. Additionally, the college seeks to lessen marginalization along two geopolitical borders, Sa Kaeo Province (adjacent to Cambodia) and Tak Province (adjacent to Myanmar). Community, societal, and environmental sustainability will be fueled by the college's strong desire to send educated college graduates back to their hometowns.

The programs have been divided into two main bachelor's degrees, which are as follows:

1. Bachelor of Arts (B.A.) Program in Geo-Social and Cultural Management
2. Bachelor of Science (B.Sc.) Program in Innovative Agriculture and Sustainable Watershed Management

The emphasis of Bachelor of Arts programs is on the College's philosophy, determination, and goals in relation to the university's strategic community, society, environment, country, and neighbors. Due to this, there is a process for teaching and learning, as well as knowledge from research and learning activities, that enables students to think and learn as a group in order to establish sustainable communities.

The Bachelor of Science degree in Innovative Agriculture and Sustainable Watershed Management is the latest curriculum offered by our college. This program consisted of two majors: 1. Innovative Agriculture and 2. Sustainable

Watershed Management. The program aims to create graduates with the knowledge to apply modern agriculture sciences and innovation through a teaching and learning process that is consistent with the environment in agriculture and water resources. All the courses focused on providing students with integrated knowledge in both agriculture and water management by using technology and innovation that combines theory and practice in real-world conditions. Therefore, graduates can apply knowledge and practical skills in agriculture and water management by integrating knowledge into operations effectively.

All students are required to complete four years of study at Srinakharinwirot University's Ongkharak Campus, according to the educational curriculum. Students must enroll in classes in the first and third years in order to learn and practice in the provinces of Sa Kaeo and Tak. In the fourth year, students must complete internships and research related to the program as well as submit term papers in accordance with curriculum requirements based on program-related topics that they are interested in.

CCAS wants its students to achieve the following goals: the cultivation of an honest livelihood; the development of a patronizing society; the promotion of peaceful coexistence among people in the nation and those living on its borders; and the application of technology to the management of social and community problems.

College of Creative Industry

Website: <https://cci.swu.ac.th/>

Phone: (662) 649 5000 Ext. 12891

E-Mail: cci@g.swu.ac.th

To drive beyond the frontiers of knowledge for creative industry, College of Creative Industry (CCI) aims to be a leading educational organization for learning, specialized in the areas of art, science, and management that are essential for creativity and innovation in the global.

PROGRAMS:

Bachelor of Science in Gems and Jewelry (B.Sc.)

This curriculum is especially designed to respond to the needs of the industry. With the program's concept of "Thinking, Seeing, Doing, and Selling", students will be embedded with strong knowledge in jewelry production as well as entrepreneurship management through practical teaching and learning methods and international experiences from experts in academics and the industry.

Bachelor of Arts in Fashion, Textiles and Accessories (B.A.)

This program focuses on aspiring new entrepreneurs who can integrate the knowledge of design, science, technology and innovation based on our folk wisdom. This will effectively increase the value of fashion products and brands in order to help student complete their purpose together with international market.

Bachelor of Arts in Creative Products (B.A.)

The creative products program is a combination of arts, technology and management, aiming to produce the graduates with the 21st century skills. Students will be groomed to be entrepreneurs or work effectively and professionally with leading companies.

Master of Fine and Applied Arts in Fashion Design Innovation (M.F.A.)

This integrated program is for academics and designers whose passion are to become experts in an innovative design through multidisciplinary learning approaches as well as application from local wisdom to global society.

Master of Science in Creative Brand Management (M.Sc.) - International Program

Integrating innovation and creative ideas from customers and marketing trends, the Creative Brand Management program aims to create value to products and services in a unique way. SMEs and young entrepreneurs who want to make differentiation on their own brands are welcome to join and collaboratively build an active network with experts and specialists from the industry and academics through active teaching, learning approaches and international opportunities.

Master of Science in Innovation and Industrial Management (M.Sc.)

This program is designed to respond the needs and requirements from employers, especially SMEs and business owners in the industries. The program itself offers the unique opportunities for students to work directly with and learn together from the professionals in workplaces. Students will eventually develop their creativities with practical experience earned from working with the companies and manufacturing to analyze and come up with solutions for the ultimate industry improvement.

Graduate School

Website: <http://grad.swu.ac.th>

Fax: (662) 260 0132

The Graduate School of Srinakharinwirot University provides a comprehensive array of degree programs. From fields as diverse as ethnomusicology and sports physiology, to education and history, and to engineering and molecular biology, as well as a set of multi-disciplinary graduate programs that reach across a variety of cooperating faculties within the university are also provided.

The Graduate School offers a total of 36 Doctoral degree programs, 62 Master's degree programs and a diploma program. Prospective students are offered state-of-the-art facilities and faculties on the cutting edge of research that are ready to challenge their knowledge and support their goals.

The Graduate School embraces national and international standards for academic excellence and strives to shape and reflect the economic and social environment of the 21st

century Thailand. The administration regularly evaluates all of the graduate programs with respect to the strategic goals of the university. A variety of graduate committees function as boards of directors to maintain and enrich the quality of graduate education. All graduate programs are strictly evaluated by the quality assurance team and the results are reported to the university council on a regular basis.

Prospective students are highly motivated to develop their knowledge in the service of the future with the help of leading scholars, scientists, artists and professors from within the country and from around the world to pursue their professional practice. Supported by a superlative learning environment, convenient location, and a faculty that is second to none, the graduate education at Srinakharinwirot University today is the right choice for tomorrow.

The Behavioral Science Research Institute (BSRI) was formally established on 25th August 1955, as a joint venture between the Government of Thailand and UNESCO. It was then known as both the "International Institute for Child Study" (IICS) and the "Bangkok Institute for Child Study."

In August 1975, when the former College of Education changed its status to the university and was named Srinakharinwirot University, the institute IICS also changed its name to "Behavioral Science Research Institute" due to the enhanced scope of work. Its status was then recognized the same as that of a distinct faculty.

The BSRI has three main functions: research, teaching and social engagement.

Research: Over the past decade, the institute has been conducting behavioral science research in many areas by combining knowledge from various disciplines such as psychology, sociology, anthropology, education, economics, and political science. The areas of research contribution include child development, family study, work socialization, health promotion behavior, youth problems and development, professional development, peace and conflict in the family, work and community, among many others. Cross cultural research projects have also been conducted to foster collaboration in research. For the future, the BSRI is strategically aiming towards the internationalization of its research and study programs.

Teaching: The teaching function of BSRI began in the field of behavioral science in 1984 when the institute first offered the master's degree program in "Applied Behavioral Science Research" (ABSR). Currently, BSRI offers two doctoral

degree programs in ABSR-PhD by course work and by research. Additionally, the BSRI offers a PhD Program in Applied Psychology. This program was introduced in 2013 and has been successful in attracting many students at doctoral level.

Social Engagement: The faculty and staff of BSRI engage in various activities by integrating knowledge from teaching and research to develop applications of behavioral science and psychology with an aim to serve the contemporary needs of society.

Along with these main functions, the BSRI publishes three academic journals, two in Thai language and one in English. All journals are indexed in tier 1 of the national database, Thai Journal Citation Index Center (TCI). Additionally, the international journal, named "Journal of Behavioral Science", is indexed with the prestigious international data base such as the SCOPUS, the Emerging Sources Citation Index (ESCI) hosted by the Web of Science, EBSCO, and the ASEAN Citation Index (ACI). In the future, the BSRI has strategic plans towards the internationalization of its research and teaching programs.

Phone: (662) 649 5020

Educational and Psychological Test Bureau (EPTB) was established by Professor Chaval Paerattanakul, Ph.D. on 26th June 1961 based on the philosophy of "Testing for discovering and developing the capacity of humans".

EPTB is committed to the development of innovation in testing so as to enhance sustainable development of the capacity of humans. The mission of EPTB is aiming to become an innovation organization that provides testing for human capacity development under the supervision of Srinakharinwirot University that emphasizes on the quality and standard academic services, leading to sustainable social value.

EPTB provides testing services for any agencies interested in using the tests with people of all ages in both paper-based and computer-based forms, such as a learning achievement test, aptitude test, affective domain test, 21st century skills test, employee competency test, and employee recruitment test, including the training about measurement and evaluation, research, and statistics in education for agencies or people interested. In addition, EPTB offers integrated services starting from the procedures of admission examination, creating the test that meets the demands of organizations/agencies, administration of testing management, inspecting, analyzing, and processing the tests to the final process which is the test announcement under the concise and reliable operations by qualified personnel of EPTB.

Strategic Wisdom and Research Institute

Website: <http://research.swu.ac.th>

Phone: (662) 260 1013

Fax: (662) 259 1822

The Strategic Wisdom and Research Institute (SWURI) was established in 2012 with the aims of promoting Srinakharinwirot University to be one of Thailand National Research Universities and be recognized as one of the leading universities in ASEAN. As a think-tank of Srinakharinwirot University, our main function is to propose and drive the country's strategy by stipulating research problems according to government as well as the university policies. The SWURI is not only responsible for gathering, allocating, and managing research funds, but also striving to push forward the commercial utilization of research outputs.

The SWURI mission is to provide complete research-related services from upstream to downstream. SWURI features three core divisions to deliver a range of assistance from routine support services to advanced technical and consulting services. These divisions are:

Research Management Division

Intellectual Property Management Division

Data Management and Research Publication Division

Annually, the Strategic Wisdom and Research Institute offers a variety of training programs, seminars, workshops, and conferences that enable Srinakharinwirot University staff, students, and postdoctoral fellows to acquire additional intellectual expertise needed to advance their research competencies.

The Institute of Culture and Arts

The Institute of Culture and Arts, Srinakharinwirot University, was approved by the University Council as an official unit of the University on March 31st, 2000. The Institute of Culture and Arts has become a part of central administration with a primary mission to preserve and elevate Thai culture and arts to the ASEAN level since then. The Institute undertakes projects on honoring the monarchy, preserving religions and Thai cultures and traditions. The Institute is also responsible for the University's archive collection, the Chronicle Hall, the Primary Exhibition Hall, the Ceremonial Hall and the Hall of Fame which collect and display the historical events of the University. The Institute also publishes the Institute of Culture and Arts journal, a TCI Tier 1 journal, in order to

provide research on education, arts, cultures and qualified academic works to communities. In addition, the Institute is responsible for service areas: The Exhibition Hall and the Asok Montri Theater for art exhibitions, plays, dance, music, movies, meetings, seminars and other artistic activities. They are located on the 2nd – 4th floors of the Professor Dr. Saroj Buasri-Innovation Building. Lastly, the Institute is responsible for the Thai Wisdom Museum and the Royal Highness Princess Maha Chakri Sirindhorn Thai House compound on the Ongkharak campus in Nakhon Nayok province. These buildings are serving for activities and ceremonies which are consistent with the University's mission on preserving cultures and arts.

Website: <http://med.swu.ac.th/msmc/index.php>

Phone: (6637) 395-085-6

Fax: (6637) 395-087

HRH Maha Chakri Sirindhorn Medical Center is the first university hospital of Srinakharinwirot University which was established to commemorate Her Royal Highness Princess Maha Chakri Sirindhorn's 36th Birthday. On 2nd November 2001, Her Royal Highness Princess Maha Chakri Sirindhorn presided over the opening ceremony of the hospital.

The hospital is located in Ongkharak campus, Nakhon Nayok province. The main hospital building comprises 17 floors with 58,595 square meters' total area to serve as the major educational hub for clinical years' medicine study, post-graduate medicine trainings and allied health care studies, i.e., Faculty of Nursing, Faculty of Pharmacy and Faculty of Physical Therapy.

The hospital utilizes 500-bed capacity, every specialized physicians and technologies to provide high-quality health care for patients and hospitals of the region in northeast of Bangkok. As a public hospital, the guiding principle was public service and to support teaching, learning and research of the faculty and the university. The hospital mission is to be the international-standard tertiary (referral center) hospital of the region.

Panyananthaphikkhu Chonprathan Medical Center

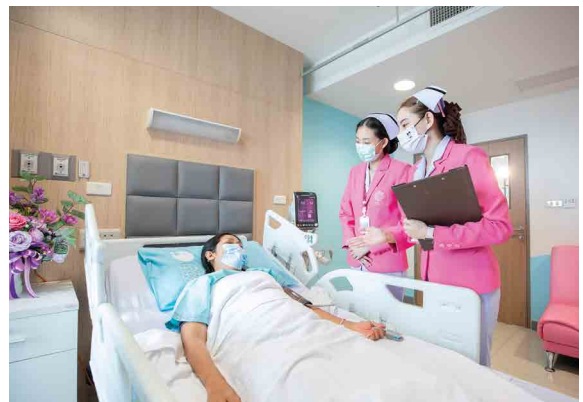

Website: <http://pcmc.swu.ac.th/>

Phone: +662 502 2345

Panyananthaphikkhu Chonprathan Medical Center (PCMC) is a teaching hospital located in Pakkret District, Nonthaburi, Thailand. PCMC operates under the direction of Srinakharinwirot University since October 2007. Our center has 18 departments in total; Medicine, Surgery, Pediatrics, Ophthalmology, Radiology, Anesthesiology, Orthopedics Surgery, Obstetrics and Gynecology, Psychiatry, Otolaryngology, Family Medicine, Clinical and Anatomical Pathology, Forensics Medicine, Rehabilitation Medicine, Emergency Medicine, Pharmacy, Dentistry and Nursing.

PCMC was certified as Hospital Accreditation (HA) from the Healthcare Accreditation Institute (Public Organization) for 4 consecutive times on 7th February 2013, 19th May 2015, 28th August 2018 and 28th August 2021 respectively. We have strong intention for further development in promoting the Center to be an organization towards excellence which are certified by TQA.

In response to the increasing number of people seeking medical care, it has become essential for the hospital to undergo rigorously to provide first class healthcare services. Currently, our new 20-floors medical center building additionally provides special clinics and services to support health care demand. We have 4 expertise centers (Retina Center, Sleep Disorders Center, MIS & Endoscopy Center, Joint Replacement Center) and 4 excellence centers (Cancer, Newborn, Emergency and Multiple Organ Injuries, Cornea Transplantation) serving as the new alternative choices for patients. We are committed to provide excellent healthcare services, integrate spiritual health and research to serve our patients and their families of all ages with sustainably care.

Prasarnmit Demonstration School (Elementary)

Prasarnmit Demonstration School (Secondary)

Prasarnmit Demonstration School (Elementary)

Website: <http://prathom.swu.ac.th>

Phone: (662) 258-4242, 258-4244

Fax: (662) 259-4517

Prasarnmit Demonstration School is an elementary school which operates under the supervision of Srinakharinwirot University, one of Thailand's leading universities. The school serves as a model educational institution, implementing advanced teaching methodologies and providing a nurturing environment for the students. The school firmly believes in its philosophy that education is growth, aiming to cultivate critical thinking, creativity, and leadership skills in the students and preparing them for future challenges and opportunities.

Prasarnmit Demonstration School offers a comprehensive educational experience by providing the Thai Programme which follows Thai curriculum, and the Prasarnmit Primary International Programme (PPIP) which adopts British national curriculum. These curricula are enriched with a diverse range of integrated subjects and extracurricular programs. By integrating technology into their teaching practices, the school leverages digital resources to enhance the learning process. Furthermore, through the utilization of the International Early Year Curriculum (IEYC) and International Primary Curriculum (IPC), we strive to deliver creative and interactive framework of learning centered around a holistic style of teaching that enhances and enriches the learning experiences for our students.

Prasarnmit Demonstration School (Secondary)

Website: <http://www.spsm.ac.th>

Phone: (662) 260-9986-8

Fax: (662) 662-1183

Prasarnmit Demonstration School (Secondary) was founded on 3rd July 1952. It is affiliated with the Faculty of Education of Srinakharinwirot University. With the efficient academic administrative system, the school manages basic education effectively by emphasizing developmental research, teaching and learning demonstration, experimentation, and sharing knowledge with other educational institutes. The school is well equipped with facilities, materials and professionally qualified personnel from the Faculty of Education who are helping, supporting and supervising the teachers training students. The school aims to develop the students physically, mentally and intellectually, and to prepare them with the ability to solve problems skillfully, utilize communication technology and pursuing for knowledge independently. Our students will be professionally skilled in communication and teamwork with strong moral values to become good citizen in the future.

The Satit Prasarnmit International Programme (SPIP) was established in 2009 under the auspices of the Prasarnmit Demonstration School (Secondary). SPIP's program is operated in an English language, private, and coeducational course to deliver a superior international education based on the best international practices. It is accredited by Cambridge International Examinations (CIE) and Pearson International (Edexcel). With modern classrooms, experienced teachers and good facilities are provided to support a positive learning environment. The program is primarily structured for students who wish to enroll in either universities overseas or international program at Thai Universities. SPIP students will benefit through all classes being taught in English (except MOE stipulated Thai language and culture requirements).

Patumwan Demonstration School

Website: <http://www.satitpatumwan.ac.th>

Phone: (662) 251-3934, 251-3937

Fax: (662) 251-4159

Patumwan Demonstration School is a secondary school which employs progressive education with the focuses on building quality students. An emphasis on democracy coupled with a peaceful coexistence with nature, environment and harmonious teamwork is pivotal to our philosophy that results in a scientific acumen underlying a comprehensive school environment. The school intends to be a model of research and innovation for learning development in order to produce students of the highest quality with solid moral and ethical foundations whilst still retaining the essence of Thai culture.

The school also offers an English Program for Talented Students (EPTS). This program was initiated in 1997 with one grade of the high school. It is expanding in each subsequent year to grade 12 with three programs; Mathematics-Science, Mathematics-English and Foreign Languages. The teachers are foreign instructors who are expert in their fields and this is a primary reason why the EPTS program continues its popularity and expansion.

Ongkharak Demonstration School

Website: <http://erdi.swu.ac.th/>

Phone: (662) 649 5000 Ext. 27605

Ongkharak Demonstration School is regarded as an educational research laboratory under the Educational Research Development and Demonstration Institute established in 2008. The school is located at Ongkharak campus, approximately 70 kilometers from the main campus of Srinakharinwirot University in Bangkok. Initially, the first group of student admission to the school was the children of the faculty members and staff of Srinakharinwirot University. The first inauguration of the school and the Educational Research Development and Demonstration Institute occurred in 2012.

The identity of the school is "Attaining scientific knowledge, outstanding technological know-how, excellent language skills and moral ethics while maintaining a good relationship with local community" which reflects the heart of our educational management. Wisdom is integrated with science to assimilate learning into life.

Ongkharak Demonstration School has been continuously developing the standard curriculum and bilingual curriculum. The emphasis is placed on scientific-thinking pedagogy along with integrative research on the local subjects, and technological knowledge for the development of the community, and active learning approaches which aim to create necessary skills in problem-solving scenarios. There is also learning management with the multilingual pedagogy and academic improvement in science and mathematics. Moreover, the school fosters morality, integrity, humbleness, righteousness, generosity, and methodical responsibility. We believe that these qualities will enable our students to become effective members of society with a prosperous future.

Currently, the curricula of Ongkharak Demonstration School have been designed and developed appropriately to students from a kindergarten level to Matayom 6 (UK equivalent Year 13). In respect to the kindergarten department, the school provides both standard curriculum and bilingual curriculum. In the elementary department, there are four curricula provided: standard; bilingual; moral assertiveness and communication (MAC) program; and aptitude assertiveness communication (AAC). In the department of secondary education, the curricula consist of (1) Science-Mathematics including two sub-programs: a standard medical program, an English-intensive medical program, (2) Engineering, (3) Arts which divided into performance arts, design arts and Languages: Chinese, French, and Japanese.

Innovative Learning Center has major responsibility in ensuring the quality of general education subjects carried at Srinakharinwirot University. The Center has taken the role of preparing the general education curriculum and administrating the general education courses by working cooperatively with representatives from all faculties and educational experts as well as academic administrators.

Established in 2010, the Innovative Learning Center endeavors to promote the philosophy of general education, devised by the Ministry of Education of Thailand. The underpinning philosophy of general education is to promote physical, mental health, intellect, knowledge, morality, and desirable way of life among learners as well as to live in harmony with others.

The Center aims to provide the best educational services and practices for those who attend courses at Srinakharinwirot University and to create a new comprehensive structure to help our students to be equipped with skills that contribute to the knowledge-based society of the 21st century.

Center for Educational Media and Technology

Website: <http://cemt.swu.ac.th>

Phone: (662) 649-5000 Ext. 15404-8

Fax: (662) 260-3935

The Center for Educational Media and Technology caters to the educational technology and research requirements of instructors, students, faculty members, university staff, and community members of both Prasarnmit and Ongkharak Campuses. Our center is equipped with state-of-the-art technology and digital media facilities, offering a diverse range of services to facilitate teaching and learning, as well as research endeavors. We provide comprehensive digital video services including the options to rent studio space, engage in video production and editing, conduct sound recording, utilize graphic design resources, employ still photography, and utilize 2D and 3D computer graphic animation for special effects. Additionally, our team is specialized in instructional design and deliver educational technology training, thereby we are serving as knowledgeable mentors in media production and creators of training programs aimed at enhancing skill sets.

Furthermore, the Center offers cutting-edge technology, facilities, and dedicated spaces for interactive distance learning. We ensure seamless connectivity between faculties at Prasarnmit and Ongkharak Campuses through a robust Local Area Network (LAN), Video on Demand (VOD), Cable TV, Live Broadcasting, Webcast, Video Conferencing, e-Learning, and New Media platforms. These resources are instrumental in supporting the university's overarching mission.

Founded in 1954, the Central Library was developed with an assistance from the US Agency for International Development (USAID) and achieved a status equivalent to a faculty in 1974. H.R.H. Princess Maha Chakri Sirindhorn graciously presided over the opening ceremony of the new library building in 1989. This building was constructed to meet the continuously growing needs of the University and its enrollment.

The Central Library, housed in the H.R.H. Princess Maha Chakri Sirindhorn Building, is an eight-story instructional media center serving not only students, faculties and staff, but also the demonstration schools as well as outside users. The Central Library and its branches provide information resources through an automated library system. In addition to its regular library services, students and faculties can also get benefit of seminar and meeting room facilities. The library at Ongkharak campus places emphasis on medicine, health science, and engineering.

The Central Library is a member of Thai University Library Network Consortium under the Commission of Higher Education, aiming at resource sharing. It also actively promotes self-access learning by providing information technology facilities. SWU Discovery is a search engine that assisting access to information including full-text of theses, dissertations and online databases. The Library accepts recommendations for library materials from all university members. Visitors of the university are welcome to use the library facilities for a nominal annual fee or one-day visit.

The Central Library launched the Learning Space @ LibSWU on 21st October 2022 by renovating part of the library's first floor in order to promote and support variety of community learning. It contains 100 seats with essential facilities for students to enjoy meeting, studying or chatting in a group. This learning space is where they can gain boundless creativities as well as life-long learning.

Computer Center

Website: <http://cc.swu.ac.th>

Phone: (662) 258 1260

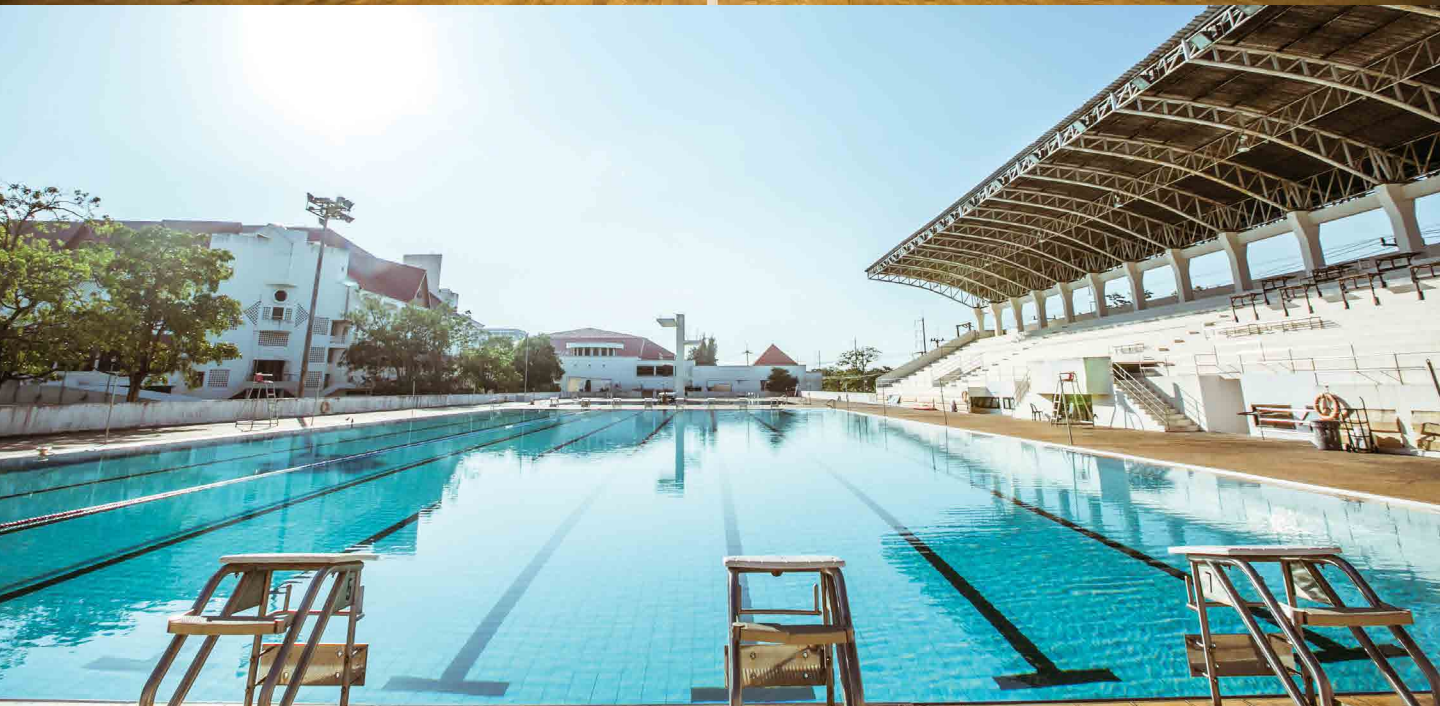

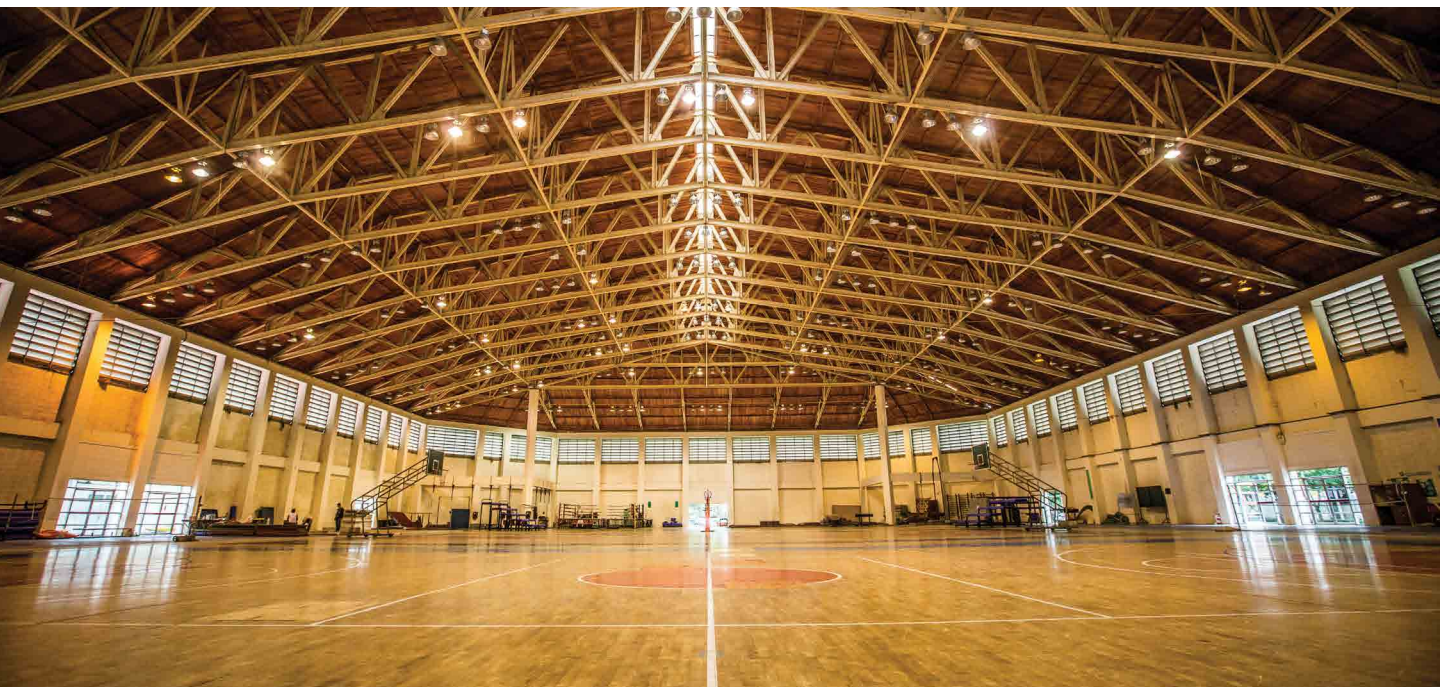

Established in 1993, the Computer Center promotes the use of digital technology, information and communication technology (ICT) services and resources to support academic, administrative and operational functions of Srinakharinwirot University. The Computer Center manages networks and institutional data for the university. It offers centralized information technology services and security to maintain and stabilize the quality of information delivery. The local area networks and wireless networks are maintained by the Computer Center in order to provide stable and high-speed networking for students, faculties, and staffs. Through the use of digital technology, the Computer Center supports the development and implementation of the educational and administrative software systems.

The Computer Center assists the academic departments, faculties, and administrative units with the recommendation and installation of computer system and software. It also manages computer rooms to support both onsite and online learning activities. The Computer Center also organizes the ICT training workshops in order to promote the awareness of ICT literacy. At present, the Computer Center of Srinakharinwirot University has two locations: Prasarnmit campus and Ongkharak campus.

The Computer Center is divided into six divisions: Director's Office Division, Information System Division, Computer System and Network Division, Operations and Services Division, Information Technology for Education Division (ITED), and Computer Services Ongkharak Division.
